THE FIRE OF YOUTH!

I have spent 30 years in the careful study of Nervous Debil-

ity and certain private weaknesses of men which result from

youthful indiscretions and later excesses. As a result of such experience I propose the following statement, and stand ready

to prove my claim to any one who will give me the opportunity

for so doing. I say, as man to man, that by the properly advised use of galvanic electricity strength can be returned. A

man at 60 should retain his full mental and physical vigor. I

base these assertions upon what I have learned from the treat-

ment of probably one hundred thousand cases. I am the in-

SCIENCE

conquers the impossible, It looks through brick walls with its X-ray eyes. It conquers the impossible, It looks through brick walls with its X-ray eyes. It grasp renders sensitive, tingling nerves absolutely unfeeling, while the surgeon knife crashes through flesh and bone. It has studied the hard, cold, torturing trusses with the steel or iron spring, and it has produced a soft, gentle yet always effective appliance called the Improved Elastic Truss, one of which is worth a dozen of the others. It is truly a scientific discovery, for this truss cures, and it cures without pain. It brings relief to man, woman and child.

It is universally recommended by intelligent physicians. For Rupture it has come to be known as an almost infallible cure. It acts where other trusses talk.

Any way you look at it, Rupture is a dengerous thing. Even if discoverage.

Any way you look at it, Rupture is a dangerous thing. Even if discouragement has made you sceptical, you owe it to yourself to investigate anything which could possibly give you relief. Now you will not investigate the improved Elastic Truss in vain—nobody has—nobody will—because it is a perfect truss.

It cures, and that is all you care about. We have supplied our Improved Emstic Trues to thomsands of unfortunate people who have suffering from instruments in the shape of wroughy constructed and leadly figures truesca.
